

Please carefully peel stickers from the backing material and apply as follows:

1. Please place the large stickers on the rear quarter panels - one on each side of the vehicle, behind the wheel wells, with the State Seal in the up position.

2. Please place the small sticker on the right side of the rear bumper, with the State Seal in the up position.

Do not attempt to remove or reposition these stickers after application. To do so will result in the destruction of the stickers.
